Upgrade to the Future, Trust the Original

Introducing KONE MonoSpace® Upgrade DX

Does your KONE machine room-less elevator deserve an upgrade? Work with the original experts behind your elevator system for a smooth upgrade. Discover the KONE MonoSpace® Upgrade DX—a next-generation solution engineered by KONE.

This isn't just an upgrade; it's a total transformation engineered for building owners who want enhanced performance, modern design, and energy-efficient technology for your building. Demand excellence. Choose the smart, seamless replacement that takes your property to the next level.

KONE MonoSpace® Upgrade DX

Hoisting machine and governor

Upgrading worn, outdated machinery contributes to maintaining safety and ride comfort

Elevator controller and electrification

Improve reliability, eco-efficiency, safety, and accessibility

Connectivity

With connectivity you can make your elevator smarter and more desirable with new people flow solutions and value adding services

Signalization (fixtures)

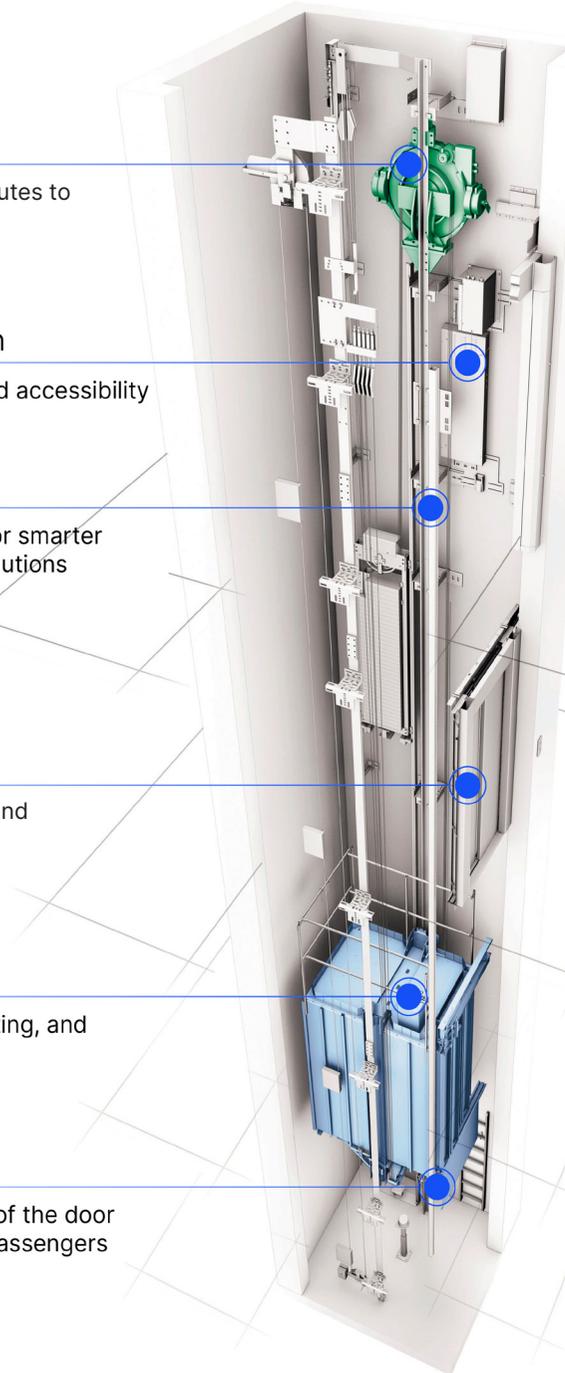

Versatile, modern range to ensure guidance and make elevators as easy as possible to use

Cab interiors

Unique cab interiors combine materials, lighting, and accessories, to bring your vision to life

Door operating equipment

Improve safety, performance, and reliability of the door equipment as well as accessibility for your passengers

Why choose KONE for your upgrade?

Trust the original equipment manufacturer of your MonoSpace® elevator—KONE—for a factory-grade upgrade designed to integrate seamlessly with your existing system. Our modernization solutions are engineered for compatibility and performance, helping you maintain reliability, enhance passenger experience, and enjoy greater peace of mind.

After years of reliable service, your KONE MonoSpace® elevator deserves an upgrade. With KONE MonoSpace® Upgrade DX you can enjoy many of the benefits of a brand-new elevator with our latest technological advances and design innovations. Whatever your need and budget, our range of quick to-install modular upgrade packages have got you covered.

Take a fresh look at your KONE MonoSpace® elevator

Breathe new life into your aging equipment with the KONE MonoSpace® Upgrade DX. Designed to integrate with your existing system, our modernization solutions help enhance ride comfort, energy efficiency, and system performance, while supporting passenger safety and accessibility. Every modernization is code compliant, boosting reliability and peace of mind for every journey.

Advanced control and safety integration

The state-of-the-art control system is engineered to support a wide range of facility applications and usage needs, while also aligning with the latest safety codes and regulatory standards. Its new governor features cutting-edge encoder technology that enables precise position control for enhanced performance.

Better, safer and more sustainable

The latest regenerative drive technology helps recycle energy, enhancing your elevator's energy efficiency and making it more eco-friendly. Replacing your existing MX machine after years of use can improve operational reliability and ensure compliance with current safety and code requirements, all while maintaining the benefits of your existing technology.

Modern design, lasting impressions

Cab interior designs are engineered to meet precise weight tolerance standards, ensuring optimal performance and safety. All new designs are developed in alignment with ADA accessibility guidelines to support inclusive use. Additionally, our exclusive photo-enveloped technology offers both standard and customizable graphic design options to suit a wide range of aesthetic and functional preferences.

Modern Fixtures & Interior Appeal

Versatile, modern signalization fixtures are designed to provide clear guidance, making elevators intuitive and easy to use for everyone. Refresh your building's look with sleek interior enhancements and cutting-edge finishes that create a striking first impression.

More Than Just an Upgrade... It's a Smart Investment

Connected Technology

Enable smart services like KONE Predictive Maintenance that uses AI-based analytics to detect potential issues in your equipment before they disrupt your day.

Safety & Comfort

Enjoy enhanced safety features, smoother rides, and superior performance.

Reduced Disruption

Our quick-to-install modular packages keep inconvenience to a minimum.

Tailored Consultation

We perform a detailed site survey and listen to your specific needs

Expert Execution

A dedicated KONE project manager ensures a smooth process and top-quality results.

Personalized Solutions

Our experts recommend and estimate the perfect approach for your building and budget.

Ongoing Care

With a KONE Care maintenance plan, enjoy proactive service designed to help maintain reliability and reduce downtime.*
